Meetings and Events
Your Key To Learning and Networking

The strength of NASTD is found in the active exchange of information among its state and corporate members on issues, best practices and day-to-day operations. The critical partnerships between the state and corporate affiliates are developed and cultivated at the various meetings held throughout the year.

Regional Seminars
Regional seminars are conducted in each of NASTD's four regions – East, Midwest, South and West – and are rotated among various cities throughout the nation. These productive meetings offer unparalleled learning and networking opportunities for all attendees. A distinctive feature of regional seminars is the state reporting session. During this session, each state provides an overview of key IT project initiatives along with a summary of current and future IT procurements. Regional seminars also offer multiple hours of scheduled networking opportunities for the attendees.

Annual Conference & Technology Showcase
NASTD's premiere annual event is held on a rotational basis in each of NASTD's four regions. The conference includes nationally recognized experts, key regulatory officials and other thought leaders in the field of information technology management. In addition to the quality educational sessions, the annual trade show creates a highly conducive environment for information exchange and collaboration among event attendees and exhibitors.

Membership
Your Key To The NASTD Community

NASTD offers four membership categories: state, state associate, corporate affiliate and small business affiliate. Each membership is held in the name of the dues paying entity and membership benefits flow to designated individuals working for the entity. Each entity is asked to designate a primary member contact.

State Membership
State membership is open to full-time employees from the state agencies or departments with primary responsibility for provisioning and managing technology resources.
Annual membership dues - $4,500

Associate Membership
Associate membership is open to any governmental department, agency, board or public institution with responsibility for, or an executive interest in, technology.
Annual membership dues - $1,000

Corporate Membership
Corporate Affiliate membership is open to private sector businesses with more than 15 full-time equivalent employees or those businesses with revenues exceeding $1 million.
Annual membership dues - $4,500

Small Business Affiliate Membership
Small Business Affiliate membership is open to private sector businesses with 15 or fewer full-time equivalent employees or those businesses with revenues of $1 million or less.
Annual membership dues - $2,000

Who We Are

NASTD represents information technology professionals from the 50 states, divided into four regions, and the private sector. State members provide and manage state government IT services and facilities for state agencies and other public entities. These members also play a strategic role in planning and shaping state government technology infrastructures and policies. Corporate members provide IT services and equipment to state government.

Established in 1978, NASTD has become the premier resource for state government IT professionals and private sector business organizations serving public sector technology professionals.
